

# **Wasatch County Commission States Plan For Fair Grounds Improvement**

The Wasatch County Commission, working with the Fairgrounds Improvement Committee made plans early this year to begin a long range fair grounds development program. The plan was to finance the development on a basis of projected income through the fair grounds race track and facility. It was hoped that over a period of time this improvement would pay for itself and therefore would not be a burden on the taxpayers of Wasatch County.

The Fair Grounds area was surveyed including adjacent land that would be needed for the race track. Cost estimates were submitted to the commission and the committee. It was their decision that it would not be possible to go ahead with the comprehensive development program this year without an increase in property taxes.

We are in the process, however, of repairing and making the Fair Grounds, Rodeo Arena, Corrals, Race Track, Grand-Stand and Bleachers ready for the County Fair which will be held August 3rd, 4th and 5th.
